

PURPOSE OF THE REPORT, DATED JUNE 26TH, 2020

Based on MiFID II legislation, European investment firms will be required to publish information on how they executed client orders.

In line with this requirement, Quintet Private Bank (Europe) S.A. provides the attached information to enable the public and investors to evaluate the quality of Quintet Private Bank (Europe) S.A. - Global Markets execution practices, and to identify the top five execution venues in terms of trading volumes where Quintet Private Bank (Europe) S.A. - Global Markets executed client orders during the year 2019.

In order to make meaningful comparisons and analyse the choice of top five execution venues, the information is published per class of financial instruments. In order to be able to fully evaluate the order flow of client orders to execution venues, it has also been identified where Quintet Private Bank (Europe) S.A. - Global Markets itself was one of the top five execution venues.

A summary of the analysis into our execution procedures for each following class of financial instruments:

- a. Equities - Shares & Depositary Receipts
- b. Debt instruments
- c. Interest rates derivatives
- d. Credit derivatives
- e. Currency derivatives
- f. Structured finance instruments
- g. Equity derivatives
- h. Securitized derivatives
- i. Commodities derivatives and emission allowances derivatives
- j. Contracts for difference
- k. Exchange traded products
- l. Emissions allowances
- m. Other instruments.

a. Equities - Shares & Depository Receipts

1. Execution factors

Quintet Private Bank (Europe) S.A. - Global Markets trades as Matched principal and has access through the brokers to different smart order routers that are able to check multiple venues when trying to execute an equity order, taking into consideration the selected market.

Quintet Private Bank (Europe) S.A. holds a membership with the Luxembourg Stock Exchange. Nevertheless client orders are transmitted to Financial Intermediaries for execution which ensured a local settlement and reduced the risk of unsettled trades.

For all markets, orders on Equities have been transmitted to Financial Intermediaries for execution on Regulated Markets, Multilateral Trading Facilities or with Systematic Internalisers. No orders on listed equities have been executed OTC (over-the-counter).

In 2019, in respect of best execution criterias, our clients' orders were executed on a fairly and satisfactory basis through our selection of brokers.

Quintet Private Bank (Europe) S.A. - Global Markets mainly executes on the primary market place, assuming that this place is the most liquid market and using the following execution factors :

- Total consideration (Execution price and costs),
- Likelihood of execution and settlement,
- Speed of execution,
- Size of transactions and market impact
- Any others criterias that could positively influence the execution for the Client.

All Quintet's executions are globally and systematically checked by the first Line of Defence (1st LoD), in terms of price correctness and time tolerance through a dedicated tool, CMC Best Execution Module, and Quintet's Timely Execution Controls.

CMC Best Execution performs a price check for a traded instrument by comparing the most liquid venue for the traded instrument with different benchmarks venues. The execution price is compared to the price on the most liquid benchmark at the execution time.

For 2019, all the trades have been validated by the tool or manually checked by the 1st Line of Defense and 2nd Line of Defense.

Quintet's Timely Execution Controls verify and justify all the belated execution prices in order to ensure that a delay has not been detrimental to the client. In 2019, most of trades have been executed in due time regarding the time tolerance, some of them have been manually checked by the 1st LoD and a low percentage of the manually checked trades have been amended to the correct timely execution price for the client.

Another control on limited and stop loss orders avoids an execution breach for a limited or stop loss order which should have been executed for the client. This control revealed minor breaches in the execution of limited and stop loss orders in 2019.

Our controls demonstrate the execution quality provided by our selected brokers in terms of price and time fairness.

In 2019, we move some counterparts/brokers from their UK entities to EU entities for regulatory reason in case of Brexit and we stop to work with one counterpart due to recurring settlement issues.

2. Affiliations & Conflicts of Interest

Quintet Private Bank (Europe) S.A. - Global Markets holds a participation in the Luxembourg Stock Exchange (LSE) but didn't use its membership for execution of client orders in Equities admitted to trading on the LSE. 1. Execution factors

Quintet Private Bank (Europe) S.A. - Global Markets trades debt instruments as matched principal through a single venue, Bloomberg Multilateral Trading Facility. On the clients' special instruction, a debt instrument may be routed to a stock exchange, provided that the financial instrument is admitted for trading on it. Quintet Private Bank (Europe) S.A. - Global Markets executes using the following execution factors :

- Total consideration (Execution price and costs),
- Size of transactions and market impact,
- Likelihood of execution and settlement,
- Speed of execution,
- Any others criterias that could positively influence the execution for the Client.

Quintet assures the best execution through Request for quotes for best price to different price providers offering liquidity in Bloomberg Multilateral Trading Facility, one of the leader platforms for Fixed Income execution.
